Dear Friend,

I am writing to you as President of Alpha Omega International Dental Fraternity which is celebrating its 105th anniversary and is the oldest International Dental Organization. We focus on philanthropic endeavours that support numerous global oral health and humanitarian projects worldwide. Although the Fraternity was originally founded to combat anti-Semitism, we serve as a proponent for peaceful coexistence among peoples of differing backgrounds, races, and creeds, utilizing the commonality of interest in dental health to bring people together.

We currently have chapters and members in cities and dental schools in the United States, Canada, South America, Europe, Israel, South Africa, and Australia/New Zealand. Alpha Omega represents about 5,000 active dentists and dental students worldwide. Fund raising for our global health initiatives are coordinated through our Fraternity and our Foundations and Charitable Trusts based in the U.S., Canada, London, Israel, and France.

The accompanying brochure tells our potential friends and patients the "Alpha Omega Story" of our International Charitable Giving. The information was collected by our fraters all over the world and contains a brief history of our Fraternity as well as the charitable efforts of our Alliance. The "story" is illustrated with photos from worldwide charitable projects including the two Israeli Dental Schools in Jerusalem and Tel Aviv whose name reflects "Founded by Alpha Omega Fraternity."

We would like to take this opportunity to thank the Henry Schein Company for donating their services and cost of production, designing, editing, printing, and mailing of the brochures internationally. Thank you for reviewing this project and we welcome your financial participation in our worldwide efforts by joining us in our endeavors.

Best Regards,

Avi Wurman, DDS
